1. Product and Company Identification

Product Code:

PJD40

Product Name:

Klean-Strip Japan Drier

Reference #:

1000.2B

Manufacturer Information

Company Name:

W. M. Barr

2105 Channel Avenue

Memphis, TN 38113

Phone Number:

(901)775-0100

Emergency Contact:

3E 24 Hour Emergency Contact

(800)451-8346

Information:

W.M. Barr Customer Service

(800)398-3892

Web site address:

3. Hazards Identification

Emergency Overview

Caution! Combustible. Keep away from heat, sparks, flame and all other sources of ignition.

OSHA Regulatory Status:

This material is classified as hazardous under OSHA regulations.

Health Hazards (Acute and Chronic)

Inhalation Acute Exposure Effects:

May cause dizziness; headache; irritation of respiratory tract; loss of coordination; drowsiness; fatigue; narcosis; weakness; difficulty breathing; blurred vision; tightness and pain in chest; coughing; nausea; pneumoconiosis; muscle twitches; eye irritation; vomiting; light headedness; and depression and damage to central nervous system. Severe overexposure may cause convulsions, unconsciousness, and death.

Skin Contact Acute Exposure Effects:

May cause irritation, redness, burning, drying, and cracking of the skin.

Eye Contact Acute Exposure Effects:

May cause redness, stinging, tearing, and irritation.

MATERIAL SAFETY DATA SHEET

Klean-Strip Japan Drier

Page: 2 Printed: 12/12/2005 Revision: 08/30/2005

Ingestion Acute Exposure Effects:

Harmful or fatal if swallowed. May cause headache; dizziness; nausea; vomiting; drowsiness; fatigue; loss of coordination; depression; gastrointestinal irritation; weakness; muscle twitches; diarrhea; depression of the central nervous system; convulsions; unconsciousness; and death. Liquid aspirated into lungs can cause damage or chemical pneumonitis, which can be fatal.

Chronic Exposure Effects:

Reports have associated repeated and prolonged overexposure to solvents with neurological and other physiological damage. May cause skin irritation; drying, burning, redness, and cracking of skin; anemia; bone marrow damage; liver damage; and jaundice.

Signs and Symptoms Of Exposure

Primary Routes of Exposure:

Inhalation; ingestion; and dermal.

Medical Conditions Generally Aggravated By Exposure

Diseases of the skin, liver, kidneys, central nervous system, cardiovascular system, and respiratory system, psychiatric disorders, and alcoholism.

OSHA Hazard Classes:

HEALTH HAZARDS: N/E PHYSICAL HAZARDS: N/E

TARGET ORGANS & EFFECTS: N/E

4. First Aid Measures

Emergency and First Aid Procedures

Inhalation:

If user experiences breathing difficulty, move to air free of vapors. Administer oxygen or artificial respiration until medical assistance can be rendered.

Skin Contact:

Irritation may result. Immediately wash with soap and water.

Eye Contact:

Immediately flush with water, remove any contact lenses, continue flushing with water for at least 15 minutes, then get medical attention.

Ingestion:

Do not induce vomiting. Call you local poison control center, hospital emergency room, or physician immediately for instructions.

Note to Physician

Call your local poison control center for further information.

5. Fire Fighting Measures

Flammability Classification:

OSHA Class II

Flash Pt:

114.00 F Method Used: SCC

Explosive Limits:

LEL: 0.8

UEL: No data.

Autoignition Pt:

No data.

Special Fire Fighting Procedures

Self-contained respiratory protection should be provided for fire fighters fighting fires in buildings or confined areas. Storage containers exposed to fire should be kept cool with water spay to prevent pressure build-up. Stay away from heads of containers that have been exposed to intense heat or flame.

MATERIAL SAFETY DATA SHEET Klean-Strip Japan Drier

Page: 3 Printed: 12/12/2005 Revision: 08/30/2005

Unusual Fire and Explosion Hazards

No data available.

Extinguishing Media

Use carbon dioxide, dry powder, or foam.

Unsuitable Extinguishing Media

No data available.

6. Accidental Release Measures

Steps To Be Taken In Case Material Is Released Or Spilled

Cleanup:

Keep unnecessary people away; isolate hazard area and deny entry. Stay upwind, out of low areas, and ventilate closed spaces before entering. Shut off ignition sources; keep flares, smoking or flames out of hazard area.

Small Spills:

Take up liquid with sand, earth or other noncombustible absorbent material and place in a plastic container where applicable.

Large Spills:

Dike far ahead of spill for later disposal.

7. Handling and Storage

Precautions To Be Taken in Handling

Read carefully all cautions and directions on product label before use. Since empty container retains residue, follow all label warnings even after container is empty. Dispose of empty container according to all regulations. Do not reuse this container.

Precautions To Be Taken in Storing

Keep container tightly closed when not in use. Store in a cool, dry place. Do not store near flames or at elevated temperatures.

8. Exposure Controls/Personal Protection

Respiratory Equipment (Specify Type)

For OSHA controlled work place and other regular users --Use only with adequate ventilation under engineered air control systems designed to prevent exceeding appropriate TLV. For occasional use, where engineered air control is not feasible, use properly maintained and properly fitted NIOSH approved respirator for organic solvent vapors. A dust mask does not provided protection against vapors.

Eye Protection

Safety glasses, chemical goggles or face shields are recommended to safeguard against potential eye contact, irritation, or injury. Contact lenses should not be worn while working with chemicals.

Protective Gloves

Wear impermeable gloves. Gloves contaminated with product should be discarded. Promptly remove clothing that becomes soiled with product.

Other Protective Clothing

Various application methods can dictate the use of additional protective safety equipment, such as impermeable aprons, etc., to minimize exposure. A source of clean water should be available in the work area for flushing eyes and skin. Do not eat, drink, or smoke in the work area. Wash hands thoroughly after use. Before reuse, thoroughly clean any clothing or protective equipment that has been contaminated by prior use. Discard any clothing or other protective equipment that cannot be decontaminated, such as gloves or shoes.

Ventilation

Use only with adequate ventilation to prevent buildup of vapors. Do not use in areas where vapors can accumulate and concentrate such as basements, bathrooms, or small enclosed areas. Whenever possible, use outdoors in an open area. If using indoors, open all windows and doors and maintain a cross ventilation of

MATERIAL SAFETY DATA SHEET Klean-Strip Japan Drier

Page: 4 Printed: 12/12/2005 Revision: 08/30/2005

moving fresh air across the work area. If strong odor is noticed or you experience slight dizziness, headache, nausea or eye-watering -- Stop -- ventilation is inadequate. Leave area immediately. If the work area is not well ventilated, then do not use this product. A dust mask does not provide protection against vapors.
